#### Double Patenting

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467,114 USPO 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPO 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer <u>cannot</u> overcome a double patenting rejection based upon 35 U.S.C. 101.

- Claim 1 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim
- 2. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). In claim 1, the limitation that "the tongue is carried by the strap and mounted to slide freely" is substantially similar to the recitation in claim 2, "tongue slide freely on the strap'. It is suggest that either claim 1 or claim 2 be amended so that the recited claim language is not duplicates. Correction is required.

## Allowable Subject Matter

 Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) objected to under 37 CFR 1.75, set forth in this Office action.

### Conclusion

 The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
